JINISH D

Full Stack Developer | React, Next.js, Node.js, Python, Java
Dubai, UAE | +971 544298684 | jinish070@gmail.com | linkedin.com/in/jinish-d-574a1a345
Portfolio: https://jinijinish.github.io/portfolio/
Nationality: Indian | Currently in UAE on Visit Visa (valid until 30 Dec 2026) | Available for immediate joining

PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience building scalable web applications and RESTful APIs using Python, Django, Node.js, Express.js, React.js and Next.js. Skilled in Java and Spring Boot, microservices architecture, Docker, Apache Kafka, JWT authentication, role-based access control and SQL/NoSQL databases (PostgreSQL, MySQL, MongoDB, Redis). Experienced in Agile/Scrum teams, unit and integration testing, and performance optimization. Seeking a Full Stack Developer role in Dubai, UAE.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, HTML5, CSS3
Front-End: React.js, Next.js, Tailwind CSS
Back-End: Spring Boot, Node.js, Express.js, Django, Django REST Framework
Databases: PostgreSQL, MySQL, MongoDB, Redis
Architecture and APIs: RESTful APIs, Microservices, JWT Authentication, Role-Based Access Control (RBAC), Socket.io
DevOps and Messaging: Docker, Apache Kafka
Testing and Tools: JUnit, Unit Testing, Integration Testing, Git, GitHub, Agile, Scrum
AI Tools: ChatGPT, Claude, Cursor, Gemini, DeepSeek

PROFESSIONAL EXPERIENCE

Full Stack Developer | Orangemegasoftware Pvt Ltd | Marthandam, India | Dec 2024 – Present

Lead Management System (Python, Django, Django REST Framework, JWT)

- Designed and developed a scalable full stack web application used by 50+ active users.
- Implemented role-based authentication (Admin, Staff, Viewer) using JWT and Django permission classes.
- Built and maintained RESTful APIs with Django REST Framework for CRUD operations and seamless data flow.
- Optimized database queries and schema design, reducing lead assignment time by 60% and API response time by 35%.
- Wrote unit and integration tests, maintaining 99.9% system uptime with zero data-loss incidents.
- Used AI tools (ChatGPT, Claude, Cursor) to accelerate development, debugging and testing.

Readers Inspiration (Next.js, React.js, Node.js, Express.js, MongoDB)

- Architected a high-performance news and media platform with Next.js SSR/SSG, reducing page load time by 45%.
- Developed responsive user interfaces with React.js and Tailwind CSS, increasing average session duration by 35% for 10,000+ monthly visitors.
- Built scalable RESTful APIs and microservices with Node.js and Express.js, handling 5,000+ daily API requests.
- Integrated third-party services and real-time features using Socket.io, boosting user interaction by 40%.

JobSeekers Job Portal - indianjobs.shop (Next.js, React.js, Node.js, Express.js, Docker, Apache Kafka)

- Built a full stack job portal with separate applications for job seekers (Next.js), companies (Next.js) and administrators (React.js), all powered by a shared Node.js backend API.
- Developed job search, company listings, user dashboard, blog and employer job-posting modules with responsive, SEO-friendly pages.
- Designed RESTful APIs in Node.js to serve the user, company and admin applications.
- Implemented event-driven, asynchronous processing between services using Apache Kafka.
- Containerized applications and services with Docker for consistent development and deployment environments.

EDUCATION

BSc Computer Science | Scott Christian College, Nagercoil, India
Relevant coursework: Data Structures, Algorithms, Database Management Systems, Web Development

LANGUAGES

English, Tamil, Malayalam
