Portfolio: jinijinish.github.io/portfolio | GitHub: github.com/jinijinish | Nationality: Indian

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience designing, developing, and maintaining scalable, high-performance web applications using React.js, Next.js, Node.js, Python/Django, and Java/Spring Boot. Proficient in HTML5, CSS3, JavaScript (ES6+), TypeScript, SQL and NoSQL databases, RESTful APIs, Docker, and Agile/Scrum delivery. Experienced in production application support, troubleshooting, and performance optimization, with a strong focus on clean, reusable code and cross-functional collaboration. Based in Dubai on a UAE visit visa — available to join immediately.

TECHNICAL SKILLS

Front-End: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
Back-End: Node.js, Express.js, Python, Django, Django REST Framework, Java, Spring Boot
Databases: PostgreSQL, MySQL (SQL), MongoDB, Redis (NoSQL)
Architecture & APIs: RESTful APIs, Microservices, JWT Authentication, Role-Based Access Control (RBAC), Socket.io
DevOps & Tools: Docker, Apache Kafka, CI/CD (basics), Git, GitHub, Agile, Scrum
Testing: JUnit, Unit Testing, Integration Testing
AI Tools: ChatGPT, Claude, Cursor, Gemini, DeepSeek

PROFESSIONAL EXPERIENCE

Full Stack Developer | Orangemegasoftware Pvt Ltd | Remote / India | Dec 2024 – Present

Readers Inspiration — readersinspiration.com (Next.js, React.js, Node.js, Express.js, MongoDB)

- Architected a high-performance news and media platform with Next.js SSR/SSG, reducing page load time by 45%.
- Developed responsive user interfaces with React.js and Tailwind CSS, increasing average session duration by 35% for 10,000+ monthly visitors.
- Built scalable RESTful APIs and microservices with Node.js and Express.js, handling 5,000+ daily API requests.
- Integrated third-party services and real-time features using Socket.io, boosting user interaction by 40%.

JobSeekers Job Portal — indianjobs.shop (Next.js, React.js, Node.js, Express.js, Docker, Apache Kafka)

- Built a full-stack job portal with separate applications for job seekers (Next.js), companies (Next.js), and administrators (React.js), all powered by a shared Node.js backend API.
- Developed job search, company listings, user dashboard, blog, and employer job-posting modules with responsive, SEO-friendly pages.
- Designed RESTful APIs in Node.js to serve the user, company, and admin applications.
- Implemented event-driven, asynchronous processing between services using Apache Kafka.
- Containerized applications and services with Docker for consistent development and deployment environments.

Lead Management System (Python, Django, Django REST Framework, JWT)

- Designed and developed a scalable full-stack web application used by 50+ active users.
- Implemented role-based authentication (Admin, Staff, Viewer) using JWT and Django permission classes.
- Built and maintained RESTful APIs with Django REST Framework for CRUD operations and seamless data flow.
- Optimized database queries and schema design, reducing lead assignment time by 60% and API response time by 35%.
- Wrote unit and integration tests, maintaining 99.9% system uptime with zero data-loss incidents.
- Mentored junior developers and participated in peer code reviews to maintain code quality and consistency.
- Used AI tools (ChatGPT, Claude, Cursor) to accelerate development, debugging, and testing.
